THANK YOU!

The business you have given us in the past is sincerely appreciated, it has been a factor in our efforts of propagating and producing better quality plants. We will continue to do our best to serve you well.

First time customers are always welcome — it takes new customers to make old customers. We want you to do business with us in a mutual profitable and friendly way.

Cordially yours,

BROOKFIELD GARDENS

Delaware, N. J.

SUPER QUALITY SHADE TREE LINERS

each per 100 — 1000

QUERCUS PALUSTRIS (pin oak)

1 yr. S. 6-12"	.12	.06
----------------	-----	-----

ACER PLATANOIDES (norway maple)

1 yr. S. 5-10"	.10	.05
----------------	-----	-----

GLEBITSIA TRIACANTHUS INERMIS (thornless honey locust)

1 yr. S. 6-12"	.08	.04
----------------	-----	-----

One cent less on orders of 3000 or more shade trees, one variety or assorted.

NOTE—our shade tree seedlings are grown in our irrigated field beds. They are freshly dug early in the Spring to be lined out in our own field rows. We do not maintain a cold storage, late Spring orders will not be accepted. Place your order now and avoid disappointment.

MAGNOLEA SOULANGEANA

(on own roots)

2 yr. xx 6-12"	.40	.35
2 yr. xx 12-18"	.60	.55
2 yr. xx 18-24"	.90	.85

PICEA OMORICA (serbian spruce)

5 yr. xxx 9-12"	.50	.45
-----------------	-----	-----

PIERIS JAPONICA (jap. andromeda)

The lily of the valley shrub, with its lustrous evergreen foliage and pendulous waxy white flower clusters, is as beautiful an evergreen as it is possible to grow.

2 yr. xx 4-6"	.30
3 yr. xx 6-8"	.35
3 yr. xx 8-10"	.45

TAXUS LINERS

widely spaced in field beds

TAXUS CUSP. CAPITATA

each per 100 — 1000

Upright Japanese yew. It is a tree form the largest of the yews grown by the trade, with brilliant red berries and dark green foliage. One of the hardiest for northern planting.

3 yr. X S. 6-8"	.35	.32
-----------------	-----	-----

TAXUS BROWNI

Anglojap yew. Relatively slow growing broad type, with rather short, dark green leaves. It fills up well and can be pruned easily into globose form. Horticultural experts acclaim it as the best of all yews regardless of size or shape.

3 pr. xx cut back 6-9"	.45	
2 yr. xx " 6-8"	.35	.33
1 yr. x	.20	.18

TAXUS DENSIFORMIS

The dense Anglojap yew. Very popular in the East.

3 yr. xx extra heavy plants	.60	.55
-----------------------------	-----	-----

TAXUS HENRYI

Semi-spreading Anglojap yew. Rapid-growing type, it fills well at the base and also at the top. It is denser, more compact and more uniform than the common spreading yew. Hardy and much in demand.

2 yr. xx cut back 6-8"	.35	.33
1 yr. x	.20	.18

TAXUS HALLORAN

This comparatively newcomer is spreading or vase shape yew, rather fast growing with pleasing foliage and reportedly well adapted for the colder areas of the Middle West.

2 yr. xx cut back 4-6"	.35	.33
------------------------	-----	-----

TAXUS HATFIELDI

100 — 1000

Broad pyramidal yew, dense and full at the base, with dark green leaves which are whorled and smaller than the leaves of Hicksi. Hatfieldi is in our opinion the best pyramidal yew of the 5 to 6 ft. class known to the trade today.

2 yr. xx cut back 4-6"	.32	.30
1 yr. x	.20	.18

TAXUS HICKSI

The most common and popular columnar type.

1 yr. x	.18	.16
---------	-----	-----

TAXUS INTERMEDIA

Dwarf, compact spreading type, fills well in the center. The needles are dark green and whorled.

2 yr. xx cut back 4-6"	.32	.30
1 yr. x	.20	.18

TAXUS WARDI, sold out this season.

TAXUS GREEN MOUNTAIN, sold out.

NOTE: Lining out stock is shipped by express carriers charges collect. Cash with order earns 2% discount and free packing.

50 at 100 rate—300 at 1000 rate.

B&B and other landscape stock is for sale at the nursery only.

DECIDUOUS AZALEAS

They are about the only reliably hardy Azaleas for landscape planting in the colder areas of U. S. They are natives of America and northern Asia. All in our list are nursery grown from seeds. Propagation from cuttings is quite difficult.

All our Azalea plants were cut back in the Spring, are well grown, heavily rooted with multiple canes and are dug with generous soil ball pick up at the Nursery. If shipped by express the soil will be shaken to reduce the weight. The 4 yr. plants are a good profitable item to pot for cash and carry trade.

AZALEA ARBORESCENS

(Sweet Azalea)

A handsome plant with particularly attractive lustrous foliage that becomes bronze-colored in Autumn. The white flowers open in June and July and are delightfully heliotrope-scented. Extremely hardy and valuable for northern planting.

Each Per 100

4 yr. xxx heavy field rows60

AZALEA MOLLIS (Chinese Azalea)

Very hardy. Blooms before leafing. Foliage bright green and attractive, turning to gorgeous shades of bronze and red in the fall. Flowers are large and borne in great profusion, variable colors, Salmon, Orange to Red.

Each Per 100

3 yr. xx field beds35
4 yr. xx field beds heavy50
9-12" xxx B&B	each 1.00
12-15" xxx B&B	" 1.25
15-18" xxx B&B	" 1.50

AZALEA VASEYI (Pink Shell Azalea)

One of the finest American Azaleas. It begins to flower when very small. The flowers open in May and the pink or light rose colored. The foliage is bright green, clean and attractive, turning brilliant crimson in the Autumn. Vaseyi is very hardy and well adapted to colder parts of the country.

	Each	Per 100
4 yr. XXX 4-6"	.35	
4 yr. XXX 6-8"	.40	
4 yr. XXX 8-10"	.50

15 inch B&B	"	1.50

AZALEA SCHLIPPENBACHI

(royal azalea)

Rose pink flowers in May. The dark green leaves are unusual and outstanding in both size and shape for an Azalea, up to 4" long and 3" wide. The Fall coloring of the foliage is brilliant. Our plants are 7 years old, heavy and compact.

10 in. XXX B&B	each	1.00
12 in. XXX B&B Heavy	"	1.25
15 in. XXX B&B	"	1.50

AZALEA MUCRONULATUM &

CALENDULACEUM, sold out this year.

AZALEA ROSEBUD

(gables hibrid evergreen)

10-12 in. B&B	each	1.50
---------------	------	------

CORNUS FLORIDA **(white fl. dogwood)**

America's Favorite flowering tree. We are growing this item in quantity from our own seeds and have a good supply of nice stock 2 & 3 times transplanted in 6 ft. rows. Nice heads and plenty of good roots, attractively priced.

4 yr. XX 3-4' B.R.	each	1.00

INFORMATION

We propagate and grow first quality stock for wholesale only, mostly Evergreens.

All stock offered for sale is grown out-of-doors in our own irrigated fields with the greatest of care and packed in like manner.

We are located in the coldest area of Northern New Jersey, winter temperatures at Brookfield Gardens normally drop down to zero and often 10 to 20 degrees below. Our plants are therefore, well adapted for planting in locations with a similar climate.

LOCATION OF NURSERY

We are situated 75 miles northwest of New York; 72 miles north of Philadelphia; 7 miles south of Delaware Water Gap. On Old Columbia Road, Route 46 and Delaware River, one-third mile west from the Post Office of Delaware, N. J.
